Strategy

MEMORIAL  
HERMANN  
Greater Heights

## Executive Summary

### Introduction & Purpose

Memorial Hermann Greater Heights Hospital (MH Greater Heights) is pleased to share its Implementation Strategy Plan, which follows the development of its 2019 Community Health Needs Assessment (CHNA). In accordance with requirements in the Affordable Care Act and IRS 990 Schedule H requirements, this assessment was approved by the Memorial Hermann Health System Board of Directors on June 27th, 2019.

This report summarizes the plans for MH Greater Heights to develop and collaborate on community benefit programs that address the 4 Pillar prioritized health needs identified in its 2019 CHNA. These include:

#### Memorial Hermann Health System's CHNA Pillar Priorities

- Pillar 1: Access to Healthcare
- Pillar 2: Emotional Well-Being
- Pillar 3: Food as Health
- Pillar 4: Exercise Is Medicine

The following additional significant health needs emerged from a review of the primary and secondary data: Older Adults and Aging; Cancers; Education; Transportation; Children's Health; Economy. With the need to focus on the prioritized health needs described in the table above, these topics are not specifically prioritized efforts in the 2019-2022 Implementation Strategy. However, due to the interrelationships of social determinant needs many of these areas fall, tangentially, within the prioritized health needs and will be addressed through the upstream efforts of the prioritized health needs. Additionally, many of them are addressed within ongoing programs and services (and described in more detail in the CHNA report).

MH Greater Heights provides additional support for community benefit activities in the community that lay outside the scope of the programs and activities outlined in this Implementation Strategy, but those additional activities will not be explored in detail in this report.

The purpose of the CHNA was to offer a comprehensive understanding of the health needs in MH Greater Heights's service area and guide the hospital's planning efforts to address those needs. Special attention was given to the needs of vulnerable populations, unmet health needs or gaps in services, and input from the community. To standardize efforts across the Memorial Hermann Health System and increase the potential for impacting top health needs in the greater Houston region, community health needs were assessed and prioritized at a regional/system level. For further information on the process to identify and prioritize significant health needs, please refer to MH Greater Heights's CHNA report at the following link: [www.memorialhermann.org/locations/heights/community-health-needs-assessment-greater-heights/](http://www.memorialhermann.org/locations/heights/community-health-needs-assessment-greater-heights/).

## Memorial Hermann Greater Heights Hospital

Located in the heart of Houston adjacent to The Houston Heights, MH Greater Heights Hospital has been caring for families since 1966. A 260-bed facility with more than 600 affiliated doctors, MH Greater Heights provides a wide range of medical specialties, including heart and vascular care, orthopedics, cancer treatment, sleep labs, diagnostic imaging, rehabilitation, women's care, and wound care.

### Vision

Memorial Hermann will be the preeminent health system in the U.S. by advancing the health of those we serve through trusted partnerships with physicians, employees and others to deliver the best possible health solutions while relentlessly pursuing quality and value.

### Mission Statement

Memorial Hermann is a not-for-profit, community-owned, health care system with spiritual values, dedicated to providing high quality health services in order to improve the health of the people in Southeast Texas.

### Memorial Hermann Health System

One of the largest not-for-profit health systems in the nation, Memorial Hermann Health System is an integrated system with an exceptional affiliated medical staff and more than 26,000 employees. Governed by a Board of community members, the System services Southeast Texas and the Greater Houston community with more than 300 care delivery sites including 19 hospitals; the country's busiest Level 1 trauma center; an academic medical center affiliated with McGovern Medical School at UTHealth; one of the nation's top rehabilitation and research hospitals; and numerous specialty programs and services.

Memorial Hermann has been a trusted healthcare resource for more than 110 years and as Greater Houston's only full-service, clinically integrated health system, we continue to identify and meet our region's healthcare needs. Among our diverse portfolio is Life Flight, the largest and busiest air ambulance service in the United States; the Memorial Hermann Physician Network, MHMD, one of the largest, most advanced, and clinically integrated physician organizations in the country; and, the Memorial Hermann Accountable Care Organization, operating a care delivery model that generates better outcomes at lower costs to consumers. Specialties span burn treatment, cancer, children's health, diabetes and endocrinology, digestive health, ear, nose and throat, heart and vascular, lymphedema, neurosurgery, neurology, stroke, nutrition, ophthalmology, orthopedics, physical and occupational therapy, rehabilitation, robotic surgery, sleep studies, transplant, weight loss, women's health, maternity and wound care. Supporting the System in its impact on overall population health is the Community Benefit Corporation. At a market share of 26.1% in the 'expanded' greater Houston area of 12 counties, our vision is that Memorial Hermann will be a preeminent integrated health system in the U.S. by advancing the health of those we serve.

## Summary of Implementation Strategies

### Implementation Strategy Design Process

Stakeholders from the 13 hospital facilities in the Memorial Hermann Health System were invited to participate in an Implementation Strategy Kick-Off event hosted by Memorial Hermann's Community Benefit Department and Conduent Healthy Communities Institute (HCI) on May 6, 2019. During this half-day event, participants reviewed Memorial Hermann's CHNA, were introduced to the 2019 MH Implementation Strategy Template and worked in groups to begin drafting their new implementation strategies for their respective hospitals. After the Kick-Off event, each hospital engaged in a series of three bi-weekly technical assistance calls with the Conduent HCI team and representatives from the MH Community Benefit Department to further develop and refine their implementation strategy.

### Memorial Hermann Greater Heights Implementation Strategy

The implementation strategy outlined below summarizes the strategies and activities that will be taken on by MH Greater Heights to directly address the Four Pillars and focal areas identified in the CHNA process. They include:

- **Pillar 1: Access to Care**
  - Nurse Health Line
  - ER Navigation
  - OneBridge Health Network
  - Increased Access to Care
- **Pillar 2: Emotional Wellbeing**
  - Mental Health and Substance Abuse
- **Pillar 3: Food as Health**
  - Fresh Food Pharmacy
  - Food Insecurity Screening
  - Support Groups for Hospital and Surrounding Community Members
- **Pillar 4: Exercise is Medicine**
  - Improve Health and Social Cohesion

The Action Plan presented below outlines in detail the individual strategies and activities MH Greater Heights will implement to address the health needs identified through the CHNA process. The following components are outlined in detail in the tables below: 1) actions the hospital intends to take to address the health needs identified in the CHNA, 2) the anticipated impact of these actions as reflected in the Process and Outcomes measures for each activity, 3) the resources the hospital plans to commit to each strategy, and 4) any planned collaboration to support the work outlined.
