Pre-Employment Physical Exam & Medical Screenings
On the day of your pre-employment physical exam, please report to Memorial Hermann Medical Group at the Memorial Hermann Convenient Care Center in Pearland at least two hours prior to closing. You should plan to be in our office for up to 90 minutes.

The tests listed below are required by the National Fire Protection Association (NFPA).

- **Audiometry:** This exam tests your ability to hear sounds and screen for hearing loss. It is conducted in an audio booth. (allow 15-20 minutes)
- **EKG:** This is a resting electrocardiogram. If the first test is abnormal, it will be repeated on a manual EKG machine. (allow 5-10 minutes)
- **Spirometry:** This test assesses how well your lungs work by measuring how much air you inhale and exhale with a plastic tube in your mouth. You must repeat this action multiple times in order to achieve 3 matching results. If you are congested or sick, it is recommended to reschedule your physical exam because you may not successfully complete this test. (allow 15-25 minutes)
- **Vision Screening:** This is a detailed vision exam which will test your vision using a Titmus Vision Machine. (allow 5 minutes)
