JUNIOR VOLUNTEER SERVICE

Thank you for inquiring about the Junior Volunteer Program at Memorial Hermann Greater Heights Hospital. Our volunteers work in conjunction with the staff to provide the highest quality patient care. Although we are not medical personnel, our actions and talents enhance the patients and families experience as well as provide valuable assistance to the staff. As part of the largest not-for-profit healthcare organization in Texas, we are dedicated to serving our community.

The rewards of volunteering are numerous and everlasting. You will feel happy to know your volunteer participation directly and indirectly enhances the quality of care and services provided by the physicians, nurses and staff of the hospital. Most importantly, volunteering will provide you with a sense of personal satisfaction gained from knowing you are helping others during their time of need.

APPLICATION PROCESS:

- Please complete the application. The tuberculosis (PPD) skin test form and background check form require a parent or guardian’s signature.
- The Volunteer Manager will review the application and email or call the prospective volunteer to verify receipt of the application.
- Applicants will be scheduled for interviews based on the needs of the volunteer program.
- Interviews are scheduled by date; in order the applications are received.
- The entire application process from interview to acceptance may take between three and five weeks depending upon various variables (i.e. background checks, TB screening and reference verifications).

INTERVIEW:

- During the volunteer interview, the applicant will learn about the policies, procedures, day-to-day duties of a hospital volunteer and what is expected of the applicant if accepted into the volunteer program. Very Important: Attending an interview does not guarantee acceptance into the program. The Volunteer Manager will contact the applicant after the interview to notify him/her of acceptance or denial for the program.

We appreciate your interest in volunteering and look forward to meeting you in the near future. If you have questions about the application please feel free to contact Cheryl Ivy at 713.867.4460. Please complete the attached application and return it by e-mail or in person.

PARENTAL CONSENT / RELEASE FORM

TUBERCULOSIS (PPD) SKIN TEST

It is required by the federal government that all employees and volunteers in hospitals have proof that they are free of active tuberculosis (TB). This disease has again become a major public health concern and the government has required we prove we are not spreading it within our facility.

Therefore, verification must be obtained prior to providing service. This is done by receiving a TB skin test prior or during orientation. This test is given on the forearm and will feel much like a mosquito bite. The Junior Volunteer is then required to return to the hospital within 48-72 hours so that our Occupational Health Nurse may interpret it. If the Junior Volunteer does not return to have it interpreted, it will have to be repeated. Please be aware that the Junior Volunteer may not begin his/her volunteer service until the TB status is documented by Occupational Health. If a Junior Volunteer is unable to receive a TB skin test it will be the parent or guardian’s responsibility to follow up with his/her physician to obtain documentation indicating there is not active TB.

I, the undersigned, hereby give permission for my son/daughter _________________________ (Print Name) to receive a PPD Skin Test (also known as the Mantoux Skin Test), used as an initial check for the presence of TB infection. It is understood that the screening result must prove negative in order for my son/daughter to actively participate in the Junior Volunteer Service program. Results of the screening will be maintained as confidential health information by Memorial Hermann Greater Heights Occupational Health.

In the event that the initial TB Skin Test is positive, it is understood that it will be my responsibility as parent/guardian to follow-up with his/her physician to rule out/diagnose active TB.
