

Advanced Care for the Lake Houston Community

Located in the dynamic and fast-growing Lake Houston Area, Memorial Hermann Northeast Hospital has been caring for families in the region and beyond for more than 30 years, offering specialized care close to home. A 227-bed facility, Memorial Hermann Northeast brings the expertise of nearly 700 affiliated physicians across a wide variety of more than 60 disciplines. Memorial Hermann Northeast is part of the Memorial Hermann Health System, with over a century of caring for the families of the Greater Houston area. Our team of health care professionals utilizes state-of-the-art technology to address the community's health care needs, from routine outpatient visits to complex inpatient procedures.

24-Hour Emergency Centers

Our emergency centers treat both children and adults, and are ready to meet the needs of critically ill or injured patients throughout northeast Houston. Our ERs are staffed by affiliated board-certified emergency medicine physicians, advanced practice providers, and nurses and technicians specially trained in emergency care.

Services include:

- Digital X-ray, computed tomography (CT), magnetic resonance imaging (MRI) and ultrasound
- Diagnostic laboratory
- Access to a higher level of care via ground ambulance or by air via Memorial Hermann Life Flight®
- Two additional 24-hour ERs located nearby, within the Memorial Hermann Convenient Care Centers in Kingwood and Summer Creek

Birthing Center and Neonatal ICU

As a Texas Department of State Health Services Level II Maternal Facility, our Family Life Center features private, comfortably appointed labor-delivery-recovery-postpartum (LDRP) suites equipped with the latest technology and premium amenities. Specially trained, affiliated physicians and nursing staff manage both routine and high-risk deliveries and neonatal care.

Available services include:

- Maternal-fetal medicine (high-risk pregnancy)
- A separate OB Emergency Center
- In-house, affiliated 24/7 OB physician hospitalists available
- Antepartum unit providing care for mother and baby before delivery
- Dedicated labor and delivery nurses providing one-on-one care during birthing
- Breastfeeding trained nurses
- Affiliated anesthesiologists available around the clock

- Private postpartum rooms where mother and baby are cared for together
- A Level III Neonatal Intensive Care Unit (NICU) able to provide comprehensive care for babies, with affiliated neonatologist care available 24 hours a day
- Childbirth, lactation and parenting education classes

Community Resource Center

The Memorial Hermann Community Resource Center-Northeast provides a one-stop location where individuals and families in our community can get help signing up for health care and social services. Staffed by community health workers, the center is here to help all members of our community improve their overall health and wellbeing by assisting with health and social service connections, applications and education.

Endoscopy Center and Digestive Health

The Endoscopy Center offers advanced diagnostic testing and treatment for digestive diseases such as ulcers, gastroesophageal reflux disease (GERD), Barrett's esophagus, colon cancer and inflammatory diseases (Crohn's disease and ulcerative colitis). Inside our four enlarged procedure rooms, a Motility Lab and a bigger scope processing room. Our specially trained affiliated physicians utilize advanced methods such as endoscopic ultrasound, a minimally invasive procedure that combines endoscopy and ultrasound technology to identify and biopsy gastroenterology tumors, aspirate cysts, and further examine other areas of concern.

Heart and Vascular Services

Memorial Hermann is at the forefront of advancing heart health, from preventive care to cardiac emergencies to complex surgical procedures. Our program combines research-driven innovation and a heart team approach to provide each patient with quality, personalized care.

With two integrated cardiac catheterization labs, the board-certified diagnostic, interventional and electrophysiology cardiologists, as well as cardiovascular and thoracic surgeons affiliated with Memorial Hermann Northeast work with a dedicated staff of caregivers to treat a spectrum of heart-related conditions and offer prevention, treatment and interventional procedures, including:

- Heart disease risk assessment
- Lifestyle and medical management
- Diagnostic testing, including advanced and non-invasive imaging
- Access to advanced technology with remote monitoring capabilities
- Minimally invasive procedures
- Endovascular and traditional surgical options

Our hospital is Chest Pain certified by the Joint Commission and meet stringent criteria for rapid response when seconds count.

Imaging (Radiology)

Our Imaging Center offers the latest advancements in imaging technology and screenings, including a 64-slice CT scanner, fluoroscopy, MRI, ultrasound and X-ray. We also offers a full suite of screening and diagnostic breast care services (mammography) and bone density screening. The affiliated team of experienced, board-certified radiologists is dedicated to breast imaging and procedures. The Center also has an Oncology Nurse Navigator who serves as a patient liaison to help patients and their family members navigate cancer treatment.

Neighborhood Health Center

Affiliated with Memorial Hermann Health System, the Neighborhood Health Center-Northeast offers affordable, quality medical care for adults and children. Open 7 days a week, the Center treats long-term problems and sudden illnesses, but also can help keep patients healthy with regular checkups.

Neuroscience Services

The neuroscience program at Memorial Hermann Northeast brings together a collaborative group of affiliated, board-certified neurologists, neurosurgeons and interventional pain management specialists, supported by a highly trained, specialized and dedicated clinical staff. Memorial Hermann Northeast is accredited as a Primary Stroke Center by The Joint Commission.

Our experienced specialists provide care in the following:

- Neck and back pain
- Spinal fractures, herniated disc, spinal cord compression, spinal fusion and spinal stenosis
- Carpal tunnel syndrome
- Stroke
- Cerebrovascular disorders
- Parkinson's disease, movement disorders and essential tremors
- Peripheral nerve disorders
- Epilepsy and seizure disorders
- Dementia and Alzheimer's disease
- Multiple Sclerosis
- Neurocognitive disorders
- Neuromuscular disease
- EEG studies
- Acute and chronic pain arising from trauma, nerve damage, degenerative conditions, debilitating headaches, facial pain diseases and systemic metabolic disorders such as diabetes
- Pre-evaluation to post-surgical therapy by a specialty trained Spine Physical Therapist in collaboration with Sports Medicine and Rehab

In collaboration with Mischer Neuroscience Associates, the Telemedicine Program enables top neurologists to observe patients remotely and assist with treatment from any location.

Patients gain real-time access to unparalleled stroke care and leading neurological expertise around the clock, all from the familiar comfort and life-saving accessibility of their own community hospital.

Primary Stroke Center

Our hospital has received The Joint Commission Gold Seal of Approval™ as a Primary Stroke Center which signifies that Memorial Hermann Northeast provides critical elements to improve patient outcomes and that the quality of care provided is effectively managed to meet the unique and specialized needs of stroke patients.

Oncology Services

As leading providers of cancer treatment in Houston, Memorial Hermann Cancer Centers offer the entire continuum of cancer care—education, prevention, screening, diagnosis, treatment, survivorship and rehabilitation. Our Cancer Center is accredited as part of the Memorial Hermann Integrated Network Cancer Program by the American College of Surgeons Commission on Cancer. In partnership with staff physicians affiliated with McGovern Medical School at UTHealth Houston, the board-certified physicians have extensive experience in radiation and medical oncology, treating all types of cancers in adult patients. We offer treatment and support services designed with the needs of cancer patients in mind, including access to dedicated Oncology Nurse Navigators to guide patients from diagnosis and survivorship, through treatment and recovery.

Orthopedics and Sports Medicine

Part of Memorial Hermann | Rockets Orthopedics, our dedicated multidisciplinary orthopedic care team includes affiliated, specialty-trained physicians, nurses and rehabilitation specialists who provide non-surgical and minimally invasive procedures, surgery and rehabilitation for muscle, joint and bone injuries and abnormalities. As part of patient-centered care, therapists perform comprehensive evaluations to determine appropriate treatment to address each patient's goals.

Sleep Disorders Center

The Sleep Disorders Center at Memorial Hermann Northeast features a two-bedroom suite designed to evaluate how sleep could be affecting patients' health. Sleep studies are conducted in a private, quiet and comfortable environment. Affiliated sleep specialists are able to diagnose and treat a wide range of sleep disorders, including behavioral issues, trouble sleeping, difficulty staying awake and more.

Surgical Services

Our affiliated physicians utilize the latest techniques and technologies to perform a wide range of inpatient and outpatient surgical procedures, including minimally invasive robotic-assisted surgery. Surgical procedures take place at the hospital offsite at Memorial Hermann Surgical Hospital Kingwood. Our goal is to offer our patients a positive, seamless patient experience—before, during and following surgery.

Women's Services

Memorial Hermann Northeast provides an array of services to meet the unique health care needs of women of all ages. From breast and bone health, to maternity and pelvic floor therapy, to gynecological surgeries, we are committed to delivering compassionate and comprehensive care to women throughout their lives. Our affiliated physicians utilize the latest techniques and technologies to perform a wide range of inpatient and outpatient surgical procedures, including minimally invasive robotic-assisted surgery.

Wound Care

The Wound Care program provides a comprehensive approach to treating patients with chronic non-healing wounds. Patients have access to the most efficient and effective treatment options available. The experienced team features affiliated physicians, nurses and technicians with advanced training in wound care and hyperbaric oxygen therapy (HBOT). Comprehensive wound management integrates advanced wound care techniques and products. Patients receive evaluation based on evidence-based research for possible physical conditions, such as diabetes, that could interfere with proper healing. Individual treatment plans are designed to help optimize healing and provide relief for patients.
